## **REINFORCED CONCRETE CONSTRUCTIONS FOR AGRICULTURAL OR INDUSTRIAL FACILITIES**

# PRAGMA CONSTRUCT YOUR CIVIL ENGINEERING PARTNER

## EXPERTISE YOU CAN TRUST

For professional infrastructures such as tanks, buildings, water treatment plants, or industrial sites, PRAGMA CONSTRUCT offers civil engineering solutions in reinforced and precast concrete that combine innovation, performance, and sustainability.

Our projects meet the strictest standards and the technical and budgetary expectations of our clients, with a strong focus on quality and safety.

With over 15 years of experience, PRAGMA CONSTRUCT relies on a team of passionate and committed professionals capable of successfully completing projects of any scale. We accompany the customer in all stages of project execution, from preliminary design and feasibility to project execution.

Our process is based on close collaboration with you to deeply analyze your project, advise you on the most effective solutions, and develop a tailored technical and economic strategy.

Together, we build solutions that precisely meet your requirements and your future needs.

## ENGINEERING - CONSULTANCY - EXECUTION: A COMPLETE AND INTEGRATED MANAGEMENT

To provide comprehensive support and a bespoke analysis of every aspect of your project, PRAGMA CONSTRUCT relies on its in-house design office, composed of engineering and design experts.

Our specialists work closely with you to ensure a thorough understanding of your objectives and to develop customized solutions that meet your specific needs.

On-site, our experienced construction teams ensure your project is executed with rigor and professionalism.

Dedicated to safety and quality, they adhere to the highest standards to deliver a controlled, secure, and efficient construction process.

We also adopt a proactive waste management policy, promoting recycling and recovery to minimize environmental impact and foster responsible construction.

## REINFORCED AND PRECAST CONCRETE SOLUTIONS: TAILOR-MADE DESIGN FOR YOUR AGRICULTURAL OR INDUSTRIAL FACILITIES

PRAGMA CONSTRUCT offers a comprehensive range of reinforced and precast concrete solutions, suitable for both new constructions and project extensions.

Our solutions are custom-designed to meet requirements for strength, durability, and flexibility across a wide variety of applications.

We are committed to using high-quality materials, carefully selected for their durability and performance. Our solutions cover a broad range of structures, including operational buildings, offices, biogas installations, water treatment plants, and industrial and agricultural facilities.

With PRAGMA CONSTRUCT, benefit from our expertise for sustainable and optimized constructions.

## FOUNDATIONS AND STRUCTURES

---

**STRIP FOOTING** > Ideal for continuous foundations beneath load-bearing walls, ensuring an even distribution of loads over a wider surface.

**BLOCK FOUNDATION** > A concrete block used to support isolated elements such as columns or heavy industrial equipment, providing stability and strength.

**RAFT FOUNDATION** > A reinforced concrete slab covering the entire surface of a building, ensuring uniform load distribution and a solid foundation for large-scale constructions.

## SLABS AND FLOORS

---

**SUSPENDED SLAB** > A solution supported by walls or beams, ideal for buildings requiring floor insulation.

**ON-GRABE SLAB** > Laid directly on compacted ground, perfect for structures without basements, offering a stable and uniform surface.

**VENTILATED FLOOR SLAB** > An elevated floor leaving a ventilated space underneath, promoting airflow and protection against moisture.

## WALLS

---

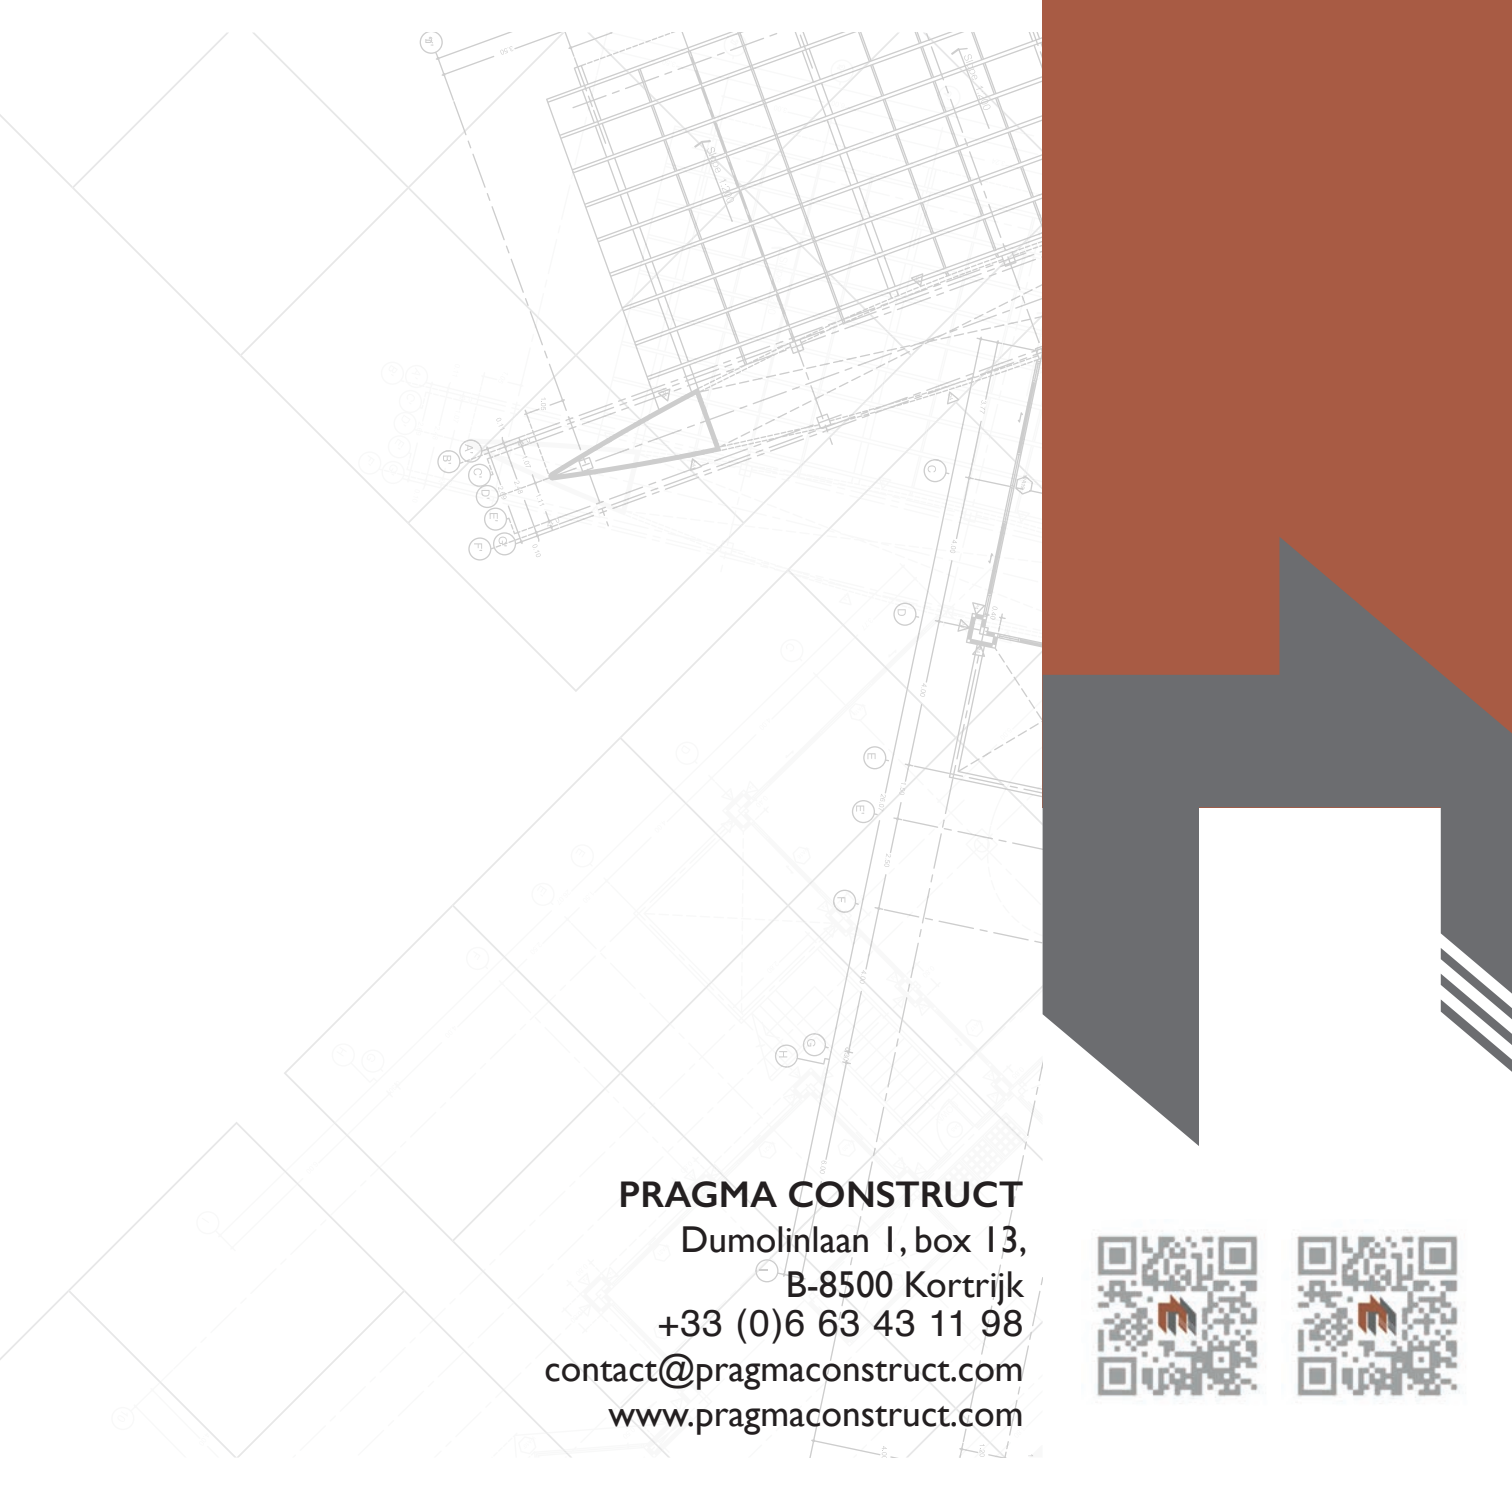

**CAST IN SITU WALL** > A wall built directly on-site using formwork, offering flexibility and strength for customized constructions.

**PRECAST WALL** > Walls manufactured in a factory and quickly installed on-site, a solution that combines precision and time efficiency for enhanced productivity.
